***CORE1-8 TAKEN***

### **CORE15 Humiliated the Dark Moon Monks**

You have humiliated the Dark Moon monks by infiltrating one of their Monasteries and getting out again. The Sharrans carry a grudge for a long time, and you would be wise to keep an eye out for shadows from now on. On the other hand, you have earned the respect of the enemies of the Church of Shar, such as the Church of Selûne, the Church of Bane, and the governments of Cormyr, the Dalelands, Evereska, and Myth Drannor. Such respect is bound to be useful someday.

In addition to specific effects described in future adventures, a DM can decide to grant you a minor bonus or penalty during any interaction with such groups, as appropriate.

### **CODE16 Hero of the Children of Saerloon**

You rescued a number of children from imprisonment by the Order of the Dark Moon. The children and their parents are not going to forget that service soon even though they have little way to show their gratitude for the time being. In addition you earned the grudging thanks of the Night Knives, a powerful thieves' guild in Saerloon with contacts all over the Sea of Fallen Stars.
